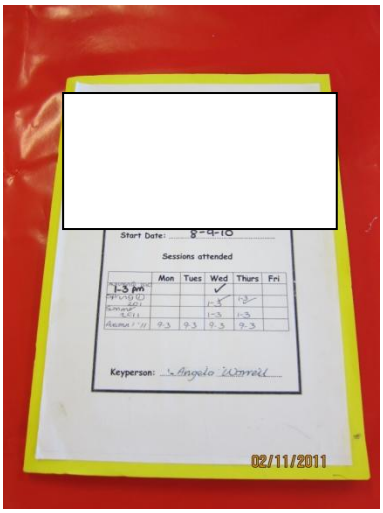
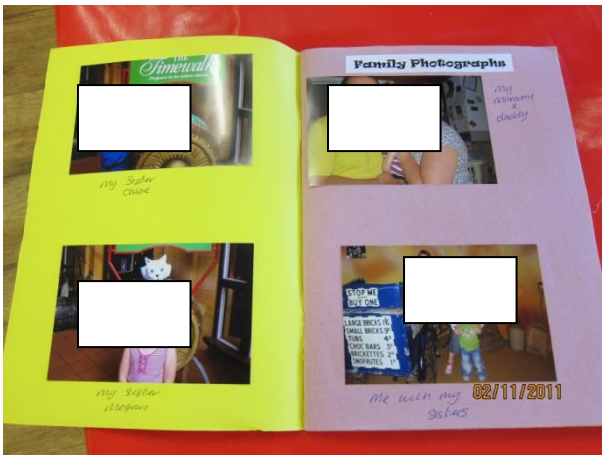
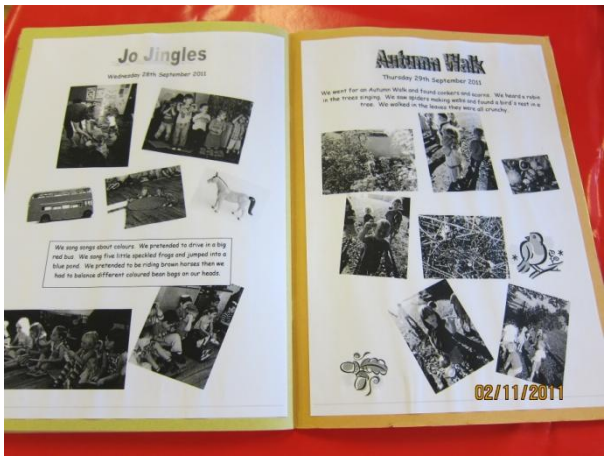
Dimension 9 - Partnership with parents

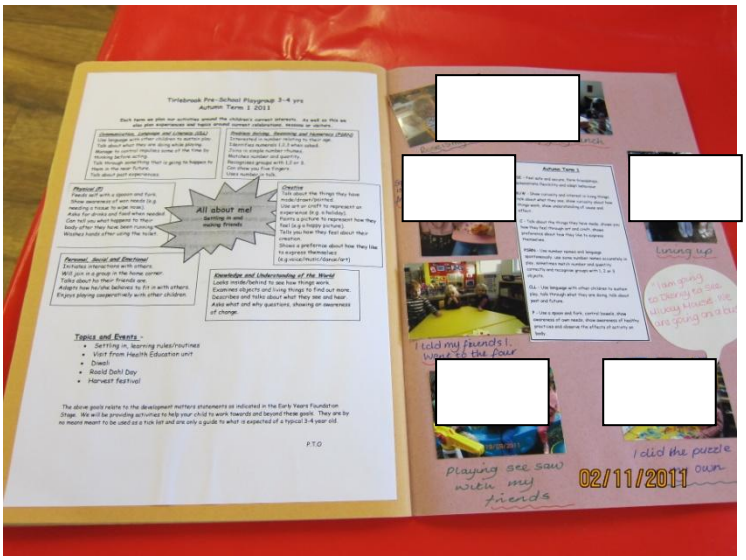
Every child has a learning journal where key persons record the children's learning and achievements whilst at playgroup.





Parents provide family photographs of trips and events.



Group activites and experiences that the children are involved in is recorded.


Each term a plan of activities and focused observations are included in the journal showing how the children are progressing in all areas of learning. They are shared with the parents and are able to comment on their children's progress.
